A selective, annotated collection of the collection of the best web links for students of general chemistry. Catalysis, in chemistry, the modification of the rate of a chemical reaction, usually an acceleration, by addition of a substance not consumed during the reaction. Rates of chemical reactions—that is, the velocities at which they occur—depend upon a number of factors, including the chemical nature of the reacting species and the external conditions to which they are exposed. GkToday's daily quiz July 02, 2018 with questions, answers, explanation and check on current affairs and important national and international events for SSC, Bank Clerical, Bank PO, State PSC, CLAT, Railway etc. competitive examinations. Who Wants to Be a Millionaire? is an Australian television game show which would offer a maximum cash prize of \$1,000,000 for answering 15 successive multiple-choice questions of increasing difficulty as a team. The show was based on and follows the same general format of the original version of the show from the United Kingdom, and is part of the international Who Wants to Be a Millionaire. 1.
