

Sprint Airave Installation Guide

Chapter 1 : Sprint Airave Installation Guide

2) cell phone signal boosters. did you know you could give a big jolt to your incoming & outgoing cell phone signal? cell phone signal boosters take existing cellular signal from the outside (no matter how weak) and amplify 3g & 4g lte signal up to 32x.I tapped dial. there's ringing, and the call goes through. it's the first call i've made from my house in two years. all it took was at&t's 3g microcell to give me 5 solid bars where there were none.
